

# Miami

## The Sounds

I'm in a hotel in downtown Miami  
But I'm going out on the streets tonight  
I'm gonna get lost on the streets tonight

The lights are on in downtown Miami  
But I'm just passing through tonight  
I'm just passing through tonight

Everybody knows that it can happen  
We all get lost on the way sometimes  
We all get lost on the way sometimes

Everybody knows that it can happen  
The hardest part is not knowing when  
If I could go back and do it over again

It's getting colder  
And heavy on my shoulders  
The darkness is taking me over  
I surrender  
It's going faster  
But nothing lasts forever  
Something went wrong and the moment was gone  
No chance for another song

I'm in a hotel in downtown Miami  
Thinking of you and the times we had  
I keep reliving the moment it all went bad

The lights are on in downtown Miami  
I never know how to deal with situations like this  
I always shiver and shake in situations like this

It's getting colder  
And heavy on my shoulders  
The darkness is taking me over  
I surrender  
It's going faster  
But nothing lasts forever  
Something went wrong and the moment was gone  
No chance for another song

It's getting colder  
And heavy on my shoulders  
The darkness is taking me over  
I surrender  
It's going faster  
Nothing lasts forever  
Something went wrong and the moment was gone  
No chance for another song

It's getting colder  
And heavy on my shoulders  
The darkness is taking me over  
The darkness is taking me over  
The darkness is taking me over  
The darkness is taking me over

The darkness is taking me over
