

# The Only Ones

## The Sounds

When I grew up It was different  
There was no violence or like other towns  
But when I came home from school that night  
I saw the cops were on the run  
There were kids on the wall reaching up to the sky  
Like a culture shock of joy  
It sent me into a strong fascination  
And what's been lost is back

'Cause we were the only ones  
Darling and me this time it's going down

You know where I belong  
And you know it's time that we let go  
Been drifting so far away from home  
November came back and all was gone  
You know where I belong, my darling  
This time It's going down

When December came I was older  
And snow was finally on the ground  
Soldiers lining up, cameras feeding the world  
With pictures that would mark my mind  
I heard this woman scream as she was begging for trust  
Then turning ghost-like behind the court  
A shotgun blast, as new years passed  
Oppression was on the run

They're Going Down

You know where I belong  
And you know it's time that we let go  
Been drifting so far away from home  
November came back and all was gone  
You know where I belong, my darling  
It's going down
