

I'm Gonna Win

The Stylistics

I'm gonna win. I'm gonna do it
I'm gonna grab for the sky
I'm gonna win. You made me want to
when I had no reason to try.

My way was dark and I didn't light it.
My world was wrong and I didn't right it.
Life was too tough and I didn't fight it. It's true, till you.

Now I'm gonna win. I'm gonna do it
And I thank God I'm alive.
I'm gonna win. You turned me on to
the dreams that I needed to survive.

Now, that you're mine I know I can swing it
Show me a bell and watch how I ring it
It's where I am going that matters and not where I've been
Now that I've something to lose, I'm gonna win.
