

## Let Them Work It Out

### The Stylistics

Tired of hearing cinder stories  
Tales of woe with happy endings  
Tell me no more

Tired of hearing people's problems  
Tired of hearing how they argue  
Tell me no more

How they live doesn't affect me  
Can't control no one but me

So if you can let them work it out  
So if you can let them work it out

Friends like you come by the dozen  
Spreading tales for some excitement  
Tell me no more

I'm aware that they have problems  
Doubt won't ease the situation  
Tell me no more

Realize that you're creating  
Vicious lies whenever you speak

So if you can let them work it out  
So if you can let them work it out

Realize that you're creating  
Vicious lies whenever you speak

So if you can let them work it out  
So if you can let them work it out

So if you can let them work it out  
So if you can let them work it out

So if you can let them work it out
