

# Love At First Sight

## The Stylistics

Love, two pages in a book  
So close it only took  
A moment to know  
That our love would grow together

And from the time I saw your face  
The lovely smile you made  
The feeling of doubt I had about  
Tomorrow

Love at first sight, so right  
In every way  
Love at first sight, so tight  
Ever since that day  
Our love is here to stay  
Love is here to stay

Strange, without a single word  
Your voice was all I heard  
Singing so clear  
Calling me near, beside you

Forget, I know I never will  
The day the earth stood still  
The moment in time  
I knew you'd be mine forever

Love at first sight, so right  
In every way  
Love at first sight, so tight  
Ever since that day  
Our love is here to stay  
Love is here to stay

The moment in time  
I knew you'd be mine forever

Love at first sight, so right  
In every way  
Love at first sight, so tight  
Ever since that day  
Love at first sight, so right  
In every way  
Love at first sight, so tight  
Ever since that day.
