

Hibernation

The Swan Bride

let loose the broken dreams
let loose the night
let loose insanity driving my mind
let go! these misty faces don't mean a thing

let loose the masquerade
it's now or never
9mm dreams leaving the barrel
i'm shot & neon lights strobe the liar's face

sleepwalking girl!
sleepwalking boy!
let loose expectations of a wake-up call
sleep-walk the town for the nearest station...
out of this hibernation

let loose the broken plans
both yours & mine
perceive insanity
betray the time
let's go! & leave the past behind our backs
let's go! no matter how much pain it takes

sleepwalking girl!
sleepwalking boy!
let loose expectations of a wake-up call
sleep-walk the town for the nearest station...
out of this hibernation
