

My Christmas Tree

The Temptations

There's a Christmas tree
In a window frame, just inside my door
But my Christmas tree
Doesn't look the same as it always has before

There's just one lonely present
Beneath my Christmas tree
'Cause the best little present a girl could have
Has gone away from me

Oh, my Christmas tree isn't very big
In fact it's kind of small
Honey went, she picked them out
They always seem so tall

The light doesn't seem so bright this year
It's hard for me to see
The smile that made my Christmas bright
Has gone away from me

I have been so lonely
Since you left me all alone
All I want for Christmas
Is my baby, my baby back home

Oh, my Christmas tree is so sad and bare
My room so big and cold
Oh they wish me, "Happy New Year"
But the new year's already on

There's no, no little Angel
On top where she used to be
'Cause the Angel that made my Christmas bright
Has gone away from me

'Cause the Angel that made my Christmas right
Has gone away from me
'Cause the Angel that made my Christmas right
Has gone away from me
