

I fear nothing

The Treatment

Now, you've battered my brain
I don't wanna know 'cause I'm tired of this game
No way this can be right
Every other day, every other night

You're like a ball n' chain
An everlasting stain
I gotta ease my pain

But I want more,
I want more
'Cause I fear nothing, yeah
'Cause I fear nothing, oh

Heat stroke, deep in my soul
If you let me go, will I ever know?
Mind games, who is gonna win?
Ever kind of move, every kind of spin

This is real
One bitter pill
And it's making me ill
I need time to heal

But I want more
I want more
'Cause I fear nothing
No, nothing
'Cause I fear nothing
I fear nothing

You're looking out when you should look in
Time to face the things that hurt you
Back to the start where it all begins
It doesn't mean we will all desert you now

But I want more
I want more
Give me more
I want more

I fear nothing
'Cause I fear nothing, yeah
I fear nothing, oh
'Cause I fear nothing, oh

Just give me more
Just give me more
Just give me more
Just give me more
