

## Girl In Black

The Troggs

Girl in black, I see you there  
Dancing with another  
Why not me or someone else  
Must it be my brother

I watch your every move  
They're so long and fine  
Eye's flashing tenderly  
But not in line with mine

Girl in black, move closer now  
I see you dance before me  
I walk across and steer your way  
But you still ignore me

What must I do for you  
To make you leave him there  
He plays around, he teases you  
I know he doesn't care

Girl in black, you come to me  
Now we dance together  
Girl in black, I hope and pray  
We can dance forever

Girl in black, come to me  
Girl in black, come to me  
Girl in black
