

## Hot Stuff

The Troggs

I see you walk, I hear you talk  
I've really got to have you  
I touch your skin, please let me in  
Nobody feels like you do

You fill me full of wild desire  
You've got the power to light my fire  
I'm going down but take me higher  
Cause the gates of love are opening for me

Hot stuff, can't get enough  
You never know if you never made love  
Hot stuff, never enough  
You really drive me, you really drive me wild

Don't walk away, please let me stay  
I know the time is suitable  
It took so long, been holding on  
I only want what's overdue

I've waited so long for her  
Seen her hanging out on the corner  
I can't wait too much longer  
Cause the feeling I've got is coming on stronger

Hot stuff, can't get enough  
You never know if you never made love  
Hot stuff, never enough  
You really drive me, you really drive me wild

Hot stuff, can't get enough  
You never know if you never made love  
Hot stuff, never enough  
You really drive me, you really drive me wild

Wild yeah

Hot stuff, can't get enough  
You make me sweat  
Hot stuff, that's really tough  
Ooh ooh touch me  
Hot stuff, more than enough  
Hold it, hold it  
Hot stuff, that's really rough  
Ah feel it, feel it  
Hot stuff...
