

I'm in Control

The Troggs

I'm in control, complete control
You may not know it, I never show it
I grab your soul

I got the wheel, I've got the rudder
You may not know it but I'm about
To make you shudder

I want to get you out of this joint
I wanna take you to the critical point
Oh yeah, oh yeah

I've got it licked, it's obvious
You may not know it but there's a difference
'Tween love and lust

I'm gonna take just what I can
You may not know it but I think
You'll understand

Wanna take you out of this joint
I wanna take you to the critical point
Oh yeah, oh yeah

I'm in control, complete control
You may not know it, I never show it
I grab your soul

I got the wheel, I've got the rudder
You may not know it but I'm about
To make you shudder

I'm in control
I've got it licked
Move over here
Take off your things
Oh yeah...
