

Oh No

The Troggs

If you go away tonight
I tried so hard tonight
To make everything go right
But you didn't want to know, oh no

You must face the world right now
Change your way of life somehow
Make your mind up little miss
Find somebody to kiss
But you didn't want to know, oh no

It breaks my heart to see you go away from me like this
The thought of you not being there is one thing that I miss

Is it something that I can do
To make the things go right with you?
I've tried so hard tonight
To make everything go right
But you didn't want to know, oh no
Oh no, oh no, oh no...
