

Tuned into Love

The Troggs

You play my kind of music, you sing my kind of song
Let's make a melody, let's get it on
You know what I'm after, you know what I like
Don't keep it from me baby, let's do it right

Cause I'm tuned into love, you're the only one that turns me on
Yes I'm tuned into love, I wanna turn your radio on
Turn me on

The way you dirty talk me really curls my toes
Something's happening to me and it shows
You're easy when you come, you're easy when you go
Don't stop the things you're doing, don't let go

Cause I'm tuned into love, you're the only one that turns me on
Yes I'm tuned into love, I wanna turn your radio on
Turn me on

Cause I'm tuned into love, you're the only one that turns me on
Yes I'm tuned into love, I wanna turn your radio on

Cause I'm tuned into love, you're the only one that turns me on
Yes I'm tuned into love, I wanna turn your radio on

Cause I'm tuned into love, you're the only one that turns me on
Yes I'm tuned into love, I wanna turn your radio on
