

Around The World

The Tubes

Guide me into the night
Give me all your delights
Slide me inside your soul
I need to know
I'm half empty
I'm so naive-it scares me

Take me right past the edge
I would hold no regrets
Show me the secret life
The cruel disguise
Hold back nothing-it's been too long

But I've got to find a way
'Cause I'm running out of stay

So many dreams to tell
You know so well
I'll go with you
Who have you saved-the much less depraved

But I've got to find a way
'Cause I'm running out of stay
