

Show Me a Reason

The Tubes

Oooooo the feeling's coming on to me at last
Every time I see your eyes my heart beats fast
I lie awake at night and think about our love
And nothing else just seems to move me quite enough

And won't you come over sometime
And give us a call
I'd be so happy to see you baby
No trouble at all

Give me a reason baby
I'll be right there
Give me a reason baby
I'll be right there

Let me hold your hand and show you it's all right
Your lady ship must be protected from the night
Then stirs the feeling indicating love
We're sent adrift on oceans sent from up above

And won't you come over sometime
And give us a call
I'd be so happy to see you baby
No trouble at all

Give me a reason baby
I'll be right there
Give me a reason baby
I'll be right there

Show me a reason baby
I'll be right there
Show me a reason baby
I'll be right there
