

Let's Talk About Girls

The Undertones

You want to know why I lost you
You want to know what's wrong with you
But nothing's wrong girl you'll feel so tough
Just lying here for me and that ain't enough

I've got to love them all day not just a few
Got to love those pretty girls is what I've got to do

Oh yeah - let's talk about girls
I said yeah - let's talk about girls
Girls that beg for more

See the pretty girls they're just walking by
Turns me on when she gives me the eye
There goes another looking so fine
I won't be happy till I've made her mine

I've got to love them all day not just a few
Got to love those pretty girls is what I've got to do
Let's talk about women
