

## Inoculate The Innocuous

The Unicorns

Small doses, daily  
Absorbed and collected in the glands of fatty tissues over time

Somewhere in the asshole of my eye  
There's a muscle which relaxes when you cry  
Somewhere in the eye of my brain  
There's a muscle which makes me go...

Storage cells for hidden substance  
But new flavours and aromas go on

Reflect on your absence  
Genuflect in my presence  
Remove your abscess, they said it's cancer  
(flavourful, beautiful)

Bananas help me unwind  
Watermelon makes it awesome
