

Left for Dead

The Unseen

10-26-2005 it marked the day
2000 soldiers died
We all live in fear day after day
As global warming is on the way
Put a bullet in you gun
And Point it at your head
Sometimes it seems we're already dead
New Orleans suffered devastation
And from the graves
The dead have risen

Some times it seems we're left for dead
So much hopelessness and destruction
We must rise up open our eyes
Make a change before we die
We are left for dead if we don't try

Plane strikes the target
Was there a bomb?
Detonation leads to crumbling
See the hole
In the wall of the Pentagon
Bodies gone
No bones or metal remains
We all have a right
A right to choose
Interpret what we see on the news
Religious wars, racial hatred
The truth is fucking suffocated

Well can't you see
It's fucking getting darker everyday!!
How long can our world subsist
Will the madness subside
Will extinction rain down from the sky
3,2,1, now or anytime. We could all die.
We're left for dead if we don't try
Poisoned or pure
It's left for dead if we don't try
There's no escape ha
We're left for dead if we don't try
The poor, the rich are left for dead
If we don't try.
