

# Wow, I Hate This Song

The Used

Bad songs sneak up on me like a horror film  
Every problem is another pill  
We're all susceptible, we all know those  
Bad songs, everything that's on the radio  
Makes me wanna fucking bash my skull  
Hurt myself literally

Every time I hear the key  
I see you in the melody  
Never was a part of me

Wow, I hate this song  
Each time it comes on  
I hate this song  
Each time it comes on

La-la-la, make it stop  
La-la-la, heard enough  
La-la-la, holy fuck  
I don't wanna sing along  
La-la-la, make it stop  
La-la-la, heard enough  
La-la-la, holy fuck  
I hate this song  
(I hate this song)

Shut it off, swear I never even had a chance  
Notes are hitting, makes an avalanche  
Damn, this is miserable, please, won't someone  
Shut it off? Break the record right in half  
Heart feels like it's being stabbed  
Kills me emotionally

Every time I hear the key  
I see you in the melody  
Never was a part of me

Wow, I hate this song  
Each time it comes on  
I hate this song  
Each time it comes on

La-la-la, make it stop  
La-la-la, heard enough  
La-la-la, holy fuck  
I don't wanna sing along  
La-la-la, make it stop  
La-la-la, heard enough  
La-la-la, holy fuck  
I hate this song

La-la-la, make it stop  
La-la-la, heard enough  
La-la-la, holy fuck  
I don't wanna sing along  
La-la-la, make it stop  
La-la-la, heard enough

La-la-la, holy fuck  
I hate this song
