

# Be with You

The Vamps

Hey lover, I'm questioning our love song  
How did we get the words wrong?  
Hey lover, the key's in the ignition  
But nothing's in the engine

And just what I'm about to say  
I'm sick of you, so go away  
You do that little thing you always do  
And then I know

I only wanna, I only wanna  
I gotta gotta, I gotta be with you  
I only wanna, I only wanna  
I gotta gotta, I gotta be with you

Hey lover, I'm screaming on the inside  
I'm running but I can't hide  
Hey lover, with everything we've been through  
A fool would only doubt you and I doubt you

And just what I'm about to say  
It's time to throw it all away  
You look at me the way only you can do  
And then I know

I only wanna, I only wanna  
I gotta gotta, I gotta be with you  
I only wanna, I only wanna  
I gotta gotta, I gotta be with you

I wanna be with you when the love is right  
I wanna be with you even when we fight  
I wanna be with you 'til the day we die  
I wanna be with you when the love is right  
I wanna be with you even when we fight  
I wanna be with you 'til the day we die

And just what I'm about to say  
It's time to throw it all away  
You look at me the way only you can do

I only wanna, I only wanna  
I gotta gotta, I gotta be with you  
I only wanna, I only wanna  
I gotta gotta, I gotta be with you  
I only wanna, I only wanna  
I gotta gotta, I gotta be with you  
I only wanna, I only wanna  
I gotta gotta, I gotta be with you
