## The Varukers

Suns going down on the human race  
Mad dog of war has raised its ugly face  
Death and destruction is all around  
Human corpses litter the ground

Genocide  
Genocide  
Genocide  
Genocide

Women and children deaf and the blind  
Total destruction of all mankind  
Cravings of a lunatic make more sense to me  
Than all the world leaders and their war policies

Genocide
