

## Circles

The Who

Circles

My head is going 'round in circles  
My mind is caught up in a whirlpool  
Draggin' me down

Time

Will tell if I'll take the homeward track  
Dizziness will make my feet walk back  
Walk right back to you

Everything I do

I think of you  
No matter how I try  
I can't get back

Circles

Leading me back to you

Round and around and around

And around and around  
And around and around  
And around and around

Round and round and round

Like a fool I go  
Down and down in the pool I go  
Draggin' me down

Everything I do

I think of you  
No matter how I try  
I can't get back

Circles

Leading me back to you

Just one thing could kill the pain

Of leaving you  
But it gets me so dizzy that I'm walkin' right back again  
Back to you

Time

Will tell if these dreams are ? fact  
Though I left I'm comin' back  
Comin' on home to you
