

## Zombies Are The New Black

The Wonder Years

You think you're safe  
but we know what there is to be afraid of,  
so keep watching your back with a bat in your hands  
because they want you to be dead like them.

They'll break down your door and walk in your house.  
They'll take your family hostage.  
Then they'll hold you down and open your skull.  
They'll eat your brains for breakfast.

Why are we so blind?  
Why can't we see,  
that they are all the enemy?  
Why are we so blind?  
Why can't we see,  
we have to kill them all to be free?

And I am arming myself with chainsaws and billy clubs. (To fuck  
you up).  
I'm barricading my house to save all the people and things that  
I love.

You think you're safe  
but we know what there is to be afraid of,  
so keep watching your back with a bat in your hands  
because they want you to be dead like them.

And I will stand alone (we can't make it on our own).  
We will fight here today (we'll keep all of them away).  
We'll cut off their heads (they'd die if they weren't dead).  
And it's not a game, no they can't stay, no they can't, they ca  
n't stay.

I never thought of it that way.  
I guess that they could be coming for me.  
To think, all this time in school just gave them more to eat.  
I heard they're rabid. I heard that they're insane.  
I heard they're Godless killing machines.  
I heard they're ready. I heard that they're coming.  
I heard we've got to fight to keep our brains.

You think you're safe  
but we know what there is to be afraid of,  
so keep watching your back with a bat in your hands  
because they want you to be dead like them.
