

Lost In The Dark

The Word Alive

[Verse 1]

Can't believe that this is our reality
How far we came, now hate is all we see
Where do we go now?
I thought that we were better than this
Where do we go now?
Why can't we be better than this?
(We're better than this)

[Chorus]

We live in a world that longs for peace
Desperate to set our passion free
But we're falling apart, we're lost in the dark
We're falling, we're falling apart lost in the dark

[Verse 2]

I know you see that it's grown bigger than just you and me
I thought that we were better than this
Where do we go now?
Why can't we be better than this?
(Better than this)

[Chorus]

We live in a world that longs for peace
Desperate to set our passion free
But we're falling apart, we're lost in the dark
We're falling, we're falling apart lost in the dark

[Bridge]

Where do we go now?
When did we forget we're all the same?
Where did we go wrong?
I wish I knew better than to let this get the best of me
I have to give what's left inside of me
I wish I knew...

[Chorus]

We live in a world that longs for peace
Desperate to set our passion free
But we're falling apart, we're lost in the dark
We're falling, we're falling apart lost in the dark
