

SEARCHING FOR GLORY

The Word Alive

If you're searching for glory, this isn't it
Searching for something good within

There's something we lack
It tears us apart and says we can't be different
It's harder to see
They want us to fail, derailed for their amusement

But you'll learn to escape
You're not bound to your fate
Create a better way
So now it's your turn
Light the fire that burns in all of us

If you're searching for glory, this isn't it
Searching for something good within
It's hard to be patient if you can't win
When the torture never ends
You're searching for glory
I'd die to find it

I can relate...
I've used all my pain to try and make a difference
I've wasted my time...
Devalued my life and battled with my conscience

So now it's my turn
I'll light the fire that burns in all of us

If you're searching for glory, this isn't it
Searching for something good within
It's hard to be patient
If you can't win
When the torture never ends
You're searching for glory
I'd die to find it

Some people wish they were someone else
It's not worth it if you lose yourself
Oh, I guess I'm asking for help...

Would you die to find it?
Would you die?

If you're searching for glory, this isn't it
Searching for something good within
It's hard to be patient
If you can't win
When the torture never ends
If you're searching for glory, this isn't it
Searching for something good within
It's hard to be patient
If you can't win
When the torture never ends
You're searching for glory
I'd die to find it
