

Out Of Style

The Wrecks

How's your bedroom look
How your step dad doing
And tell me is the weather nice way out in the middle of nowhere

I guess that's rude
It's only weather
But to be fair geographically speaking I did better

Let it go
And I'll let it go
You can let me know
When we can be close again
But if you call and I don't wanna answer my phone

It's cause
I'm in California
Cope with rum and cola
You're fucking around with guys who can't afford ya
Blame it on the miles
You're just in denial
I just wanna know when the hell did love go out of style
When the hell did love go out of style
I just wanna know when the hell did love go out of style

My room looks dope
I bought these LED lights
But no one knows I'm alone like
Pretty much every week night

Heard you're pregnant
That's cool I guess
But can you make your whole room glow 3 different shades of red

She said just
Let it go
And I'll let it go
You can let me know
When we can be close again
But if you call and I don't wanna answer my phone

I'm in California
Cope with rum and cola
You're fucking around with guys who can't afford ya
Blame it on the miles
You're just in denial
I just wanna know when the hell did love go out of style
When the hell did love go out of style
I just wanna know when the hell did love go out of style
...
