

## All Over the World (La-La)

The Youngbloods

I think I'm going crazy with this empty  
Heart of mine  
Image dreams of you keep flowing through my  
Crowded mind

People say  
I look a little more lonely every day  
It's the same all over the world  
When you lose your girl, yeah

Day or night, it's all the same, my world is  
Black and white  
Empty pit of loneliness inside me  
Cries for light

People say  
I look a little more lonely every day  
It's the same all over the world  
When you lose your girl, yeah

Though she's gone  
Life goes on and on and on  
Oh

Though she's gone  
Life goes on and on and on  
Oh

I think I'm going crazy with this empty  
Heart of mine  
Image dreams of you keep flowing through my  
Crowded mind

People say  
I look a little more lonely every day  
It's the same all over the world  
When you lose your girl, yeah

It's the same all over the world  
When you lose your girl, yeah  
It's the same all over the world  
When you lose your girl, yeah
