Flying V

If you're standing underneath it, you will see when you inspect it

That a flying V is made of flying geese The pointed end flies in the lead So when it flies, it's hard to read You've got to tip your head to see Flying V, Flying V

It's a V

In the window of a music store, or on stage at a rock show Now a flying V is made of a guitar The pointed end flies in the lead So when it flies, it's hard to read You have to be upside-down to see it
