

## Exploding Star

### Thirteen Senses

This is what I have done  
But everyone can be wrong  
This is how I can lie to anybody I like  
And this is where i want to go  
And i go whenever i want to  
Whenever I want

There's an open space  
There's an open space  
It's an open space and boy it grows  
I've got to feel I got to let it know  
I'm no push over  
I will not fall over

Staggered through a race  
Staggered through a race  
Staggered through a race now I can win  
It will never finish  
Just hanging on the edge  
See it through, hurry  
See it through, hunny

I need an exploding star  
I need to feel it just to carry on  
I need an exploding star  
I need to see it just to carry on  
Carry on

Talking to my neighbours  
Talking to my neighbours  
Talking to my friendly neighbours I cry  
They assume the distance I set foot in this time  
In my mind, worry  
I can't hide, sorry

I need an exploding star  
I need to feel it just to carry on  
I need an exploding star  
I need to see it just to carry on  
Carry on
