

Lunatic

Thomas Anders

Oh, I need you tonight
Wanna hold you tight
Turn down lights and we're together
You are weak you are wild
Oh just like a child
Stay with me now and forever
My reality is a place for you and me

Lunatic Girl you are in my heart
A girl like you won't tear apart
Lunatic Girl cloud number nine
A love like you so hard to find

Lunatic Lady can't you see
A girl the one, the one for me
Lunatic Lady on my mind
A love like you so hard to find

And I'm still in the night
In the morning light
Like a rose a fading flower
Oh I can't let you go
Cause I miss you so
Don't take away my power
Love can be no shame
Cause I still recall your name

Lunatic Girl you're in my heart
A girl like you won't tear apart
Lunatic Girl cloud number nine
A love like you so hard to find

Lunatic Lady can't you see
A girl the one, the one for me
Lunatic Lady on my mind
The love like you so hard to find
