

Love Is The Law

Thompson Twins

Have you heard that love, love, love is the law
Don't you know that love is the law
Love, love, love is the law
Have you heard that love is the law

Fighting in the name of freedom
Sometimes I wonder if we really need it
Hey, have you heard the rumor going 'round
There's gonna be big changes in this town
And there'll be no more fighting, no more guns
You better listen to us

Have you heard that love, love, love is the law
Don't you know that love is the law
Love, love, love is the law
Have you heard that love is the law

Fighting in the name of religion
Another senseless contradiction
So when you feel like getting a little tough
Remember no excuse is good enough
You better start giving more than take
Or something just might break

Have you heard that love, love, love is the law
Don't you know that love is the law
Love, love, love is the law
Have you heard that love is the law

Acting to prevent a war
Why should we do it any more?
I know the way to live is side-by-side
This world is big enough for everyone
C'mon lets have some fun

Love, love, love is the law
Don't you know that love is the law
Love, love, love is the law
Have you heard that love is the law

Love, love, love is the law
Don't you know that love is the law
Love, love, love is the law
Have you heard that love is the law

The law
Love... is... the law
Have you heard... the law
The law
Love... is... the law
