

# Rock This Boat

Thompson Twins

Hush hush hush stop making a fuss  
Someone might come and rescue us  
And when they do they'll turn on all the lights  
And find the nest of vipers that we keep out of sight

I'm gonna rock this boat  
I don't want to float  
Down the river with you  
I'm gonna rock this boat  
Cause I really want to know  
If our love is true

You're a little scared, I'm a little touched  
Maybe I shouldn't go pushing my luck  
But I saw the animal in your eyes  
I wanted to go-go but my hands were tied

Love love love is a dangerous drug  
Makes me wonder what I'm thinking of  
I'm gonna make you laugh, gonna make you cry  
Cause I don't care too much for paradise
