

## One of Us

### Those Poor Bastards

Empty pockets, aching guts  
Are you one of us?  
From the bottom reaching up  
Are you one of us?  
The engineer has lost control  
Oh, God no  
The engineer has lost control  
Oh, God no  
Death train rolling down the tracks  
Doomed, derailed never coming back

Weary brain and busted jaw  
Are you one of us?  
Caring for nothing it all  
Are you one of us?  
The engineer has lost control  
Oh, God no  
The engineer has lost control  
Oh, God no  
Death train rolling down the tracks  
Doomed, derailed never coming back

Crawling down a gravel road

Are you one of us?  
Sunken cheeks and shattered bones  
Are you one of us?  
The engineer has lost control  
The engineer has lost control  
Death train rolling down the tracks  
Doomed, derailed never coming back

Filthy clothes hang like a shroud  
Are you one of us?  
Mama, Papa ain't you proud?  
Are you one of us?  
The engineer has lost control  
Oh, God no  
The engineer has lost control  
Oh, God no  
Death train rolling down the tracks  
Doomed, derailed never coming back
