

# Shadows Fall

## Those Poor Bastards

I went out walkin' beneath that wainin' moon  
got tired of sittin' with my memories in an empty room  
I looked down and I couldn't help but notice

Shadows fall, wherever I go  
shadows fall, in the dirt or snow  
shadows fall, wherever I go  
shadows fall

I took a six gun and aimed it at my head  
the birds were singin' but I couldn't tell what they said

If I had a heart, it'd break in two  
if I still had tears, they'd fall for you  
but all I got is my shadow on the floor

The dog went limpin' down that endless road  
I took my six gun and I shot that poor beast down  
I watched him fall and it, it made me feel so hopeless

Shadows fall, wherever I go  
shadows fall, in the dirt or snow  
shadows fall, wherever I go  
shadows fall

If I had a heart, it'd break in two  
if I still had tears, they'd fall for you  
but all I got is my shadow on the floor
