

Corporate Cull

Thy Disease

Corporate cull!!!
Secret preparations
For financial collapse
Stealth planes follow
In the wake of stealth tax
We are dogs in the street
Out killing for scraps
And forced to be the killers
On our own contract

Everything on the way to the final solution
Corporate cull, population implosion
Everything on the way to the final solution
Corporate cull, de-population explosion

Plague distribution
Through inoculation
Contaminated food chain
Blood dead pollution
Frequency weapons
To distort vibration
Sell the air from our lungs
With deforestation

Aspartame end game
Complete soul severance
Anaesthetised minds
With no frame of reference

Legislate the child
Debasing innocence
Destroying all routes of
escape, transcendence

Corporate cull!!!

Everything on the way to the final solution
Corporate cull, population implosion
Everything on the way to the final solution
Corporate cull, de-population explosion

Everything is in place
For the final solution
Population implosion
Everything is in place
For the final solution
De-population, explosion!!!
