

Psycho Parasites

Thy Disease

Crushed by a life
Under concrete skies
Ground to dust
Trying to find out - why?
The bigger the fool
The bigger the lie
Man build machines
Machines watch him die

Crawling from shadows towards the light
It's all around us but out of sight

Caustic lies from of a poisoned state
Corrosive smiles as they sell out your fate
Stealing the souls as they legislate
You're offered heaven but forced to wait

Bereft of life
Staring at hell
Tormented soul
It's tortured well
Corporate dream
Fallen from grace
See your reflection and memorize

Crawling from shadows towards the light
It's all around us but out of sight

Caustic lies from of a poisoned state
Corrosive smiles as they sell out your fate
Stealing the souls as they legislate
You're offered heaven but forced to wait

Psycho parasites
Know your enemy and know him well
