

# Synthetic Messiah

## Thy Disease

Visions of kingdom  
Spawned by an insane mind  
Third seal of our new dawn  
Let the children come to me  
Let the children come...

Purified by flames  
Charred souls - set them free  
Let them see

Purified by flames  
Charred souls - set them free  
Let them come to me...

Persistent thought, a new-old word  
Sunken in the irony of our synthetic smiles  
Where does it lead us from here?  
Where does it lead us from there?

Brainwashed empire of pleasure  
Eugenics is genocide  
Where does it lead us from here?  
Where does it lead us from there?

An idea implanted, under your skin  
Mankind destroyed by design

Purified by flames  
Charred souls - set them free  
Let them see

Purified by flames  
Charred souls - set them free  
Let them come to me...

False-full god, you will be lied upon  
Defamed, defamed and ridiculed  
Your way - shot up into pieces  
Gassed, gassed and mangled  
Let your kingdom come...

Purified by flames  
Charred souls - set them free  
Let them see

Purified by flames  
Charred souls - set them free  
Let them come to me...
