

# Crazy Good

Tiffany Alvord

Wakin up in the morning, you're the first thing on my mind  
And even if I'm runin late, I'd never leave you behind  
You're the best part of my day, you're my sweetest sensation  
Better than any dream, in my imagination

And I've been needin to tell you, that I've felt this way for so long

And since you've been in my life, nothin has gone wrong  
oh oo oh oo oh-oh

You make me dance like no ones watching  
You make me love like I'd never be hurt  
Ever since you've been around  
My whole world has been turned  
And I love you like I should, and I would cause I could  
Cause you're crazy good

Whether hot or cold, or through the ups and downs, you send chills th  
rough my spine  
No matter what our differences, you're always gonna be mine  
You're my smiling face when I need a break, you're the sparkle in my  
eye  
Together we're as one, we don't even need to try

And I've been needin to tell you, that I've felt this way for so long

And since you've been in my life, nothin has gone wrong  
oh oo oh oo oh-oh

You make me dance like no ones watching  
You make me love like I'd never be hurt  
Ever since you've been around  
My whole world has been turned  
And I love you like I should, and I would cause I could  
Cause you're crazy good

You're the ocean breeze, the waves crashin on my feet  
You are the sunlight on my face  
You are the blue blue sky, you are the stars shining in the night  
The one thing I'd never replace, oh-oh

And I've been needin to tell you, that I've felt this way for so long

And since you've been in my life, nothin has gone wrong  
oh oo oh oo oh-oh-oh-oh

You make me dance like no ones watching  
You make me love like I'd never be hurt  
Ever since you've been around  
My whole world has been turned  
And I love you like I should, and I would cause I could  
Cause you're crazy good
