

Anyone But Me

Tiffany Darwish

Late night I can't sleep
Still winding down from a long evening
Too caught up in my head for countin sheep
So I picked up a magazine

Fancy cars and diamond rings
The setting for the pretty people scene
I wonder if I had all of those things
Would I...
Would I...
Would I
Would I be happy?

Coz I hear it on the radio
and on the tv, and the movies...
The emails and the dailies
They keep telling me that I could be
So much thinner
Richer
A Winner
Anyone but me...

Hours till morning breaks
can't believe that I am still awake
Wading through the words that people say
And I wonder
I wonder
I wonder if they are happy?

Coz I hear it on the radio
and on the TV and the movies
The emails and the dailies
They keep telling me that i could be
So much thinner
Richer
A winner
Anyone but me...

Coz who would wanna be someone secure
And who would wanna be someone who's sure
Of who they wanna be, happy inside
I'm who I wanna be and I realize...

When I hear it on the radio
and on the TV and the movies
The emails and the dailies
They keep telling me that I could be
So much thinner
Richer
A winner
Anyone but me...

I hear it on the radio...
