

# Calling Out Your Name

Tiffany Darwish

A simple little thing  
has touched my heart  
So unaware  
From the start...

Like a shadow where i stand  
You're by my side  
I cannot imagine  
One day without you in it  
One hour or one minute...

I'll be... Calling out your name  
Calling out your name  
I'll be... (I will be.)  
Calling calling calling  
Calling calling calling...

Always on my own  
I fought the world  
Thinking I could win  
Now I'm letting go...

The love you have for me  
I'm mystified!  
I cannot imagine  
One day without you in it  
One hour  
or One minute!

I'll be... calling out your name  
Calling out your name...  
I'll be... (I will be.)  
Calling calling calling!  
Calling calling calling!

Know that you are there  
when the world just takes me down  
When i lose control  
Can't find my way  
Wont worry about a thing  
You're love takes it away

I'll be... calling out your name  
calling out your name  
I'll be... (i will be...)  
Calling calling calling!  
Calling calling calling!

I'll be... calling out your name  
Calling out your name  
I'll be... (I will be.)  
Calling out your name  
Calling out your name  
Calling out your love...
