

# Everyone Get Down

Tiffany Darwish

Rock your body  
Work your body  
Rock it all night long  
Doesn't matter where you're from  
You gotta keep it goin strong  
On the beaches of Ibiza  
They got it goin on  
And they lose their mind every time  
They hear this song

From Miami to Havannah  
From the streets of LA to the Kasbah  
Down in Mexico out to Tokyo  
All over the world there's a party  
I think it's time we get one started

Everyone get down  
Move up now  
You're getting closer to me  
Check my sound  
And how it's flowin through me  
Everyone get down  
Move up now  
You're getting closer to me  
Check my sound  
And how it flows

Rock your body  
Work your body  
Rock it all night long  
Enjoy it while it's underground  
It won't be there for long  
Simplify and amplify  
And unify us all  
Let yourself lose control  
When you hear this call

From Miami to Havannah  
From the streets of LA to the Kasbah  
Down in Mexico out to Tokyo  
All over the world there's a party  
I think it's time we get one started

Everyone get down  
Move up now  
You're getting closer to me  
Check my sound and  
How it's flowin through me  
Everyone get down  
Move up now  
You're getting closer to me  
Check my sound  
And how it flows...
