

# Feel The Music

Tiffany Darwish

I've been drivin all night  
got that look in my eye  
Sign says, "Right here! Party like there's no fear!"  
I'm getting off here  
Tasting a hell of a time  
Neon flashing lights

I feel the pump pump thump from the outside  
getting dirty tonight!

I wanna feel the music!  
Get wild in this town  
Shake it up and lose it till the walls fall down  
I wanna groove up on the melody  
And feel the beat inside of me  
And be the only star in the crowd  
I wanna feel the music all around...

I'll let you buy me a drink  
Let you think what you wanna think  
But I got my eye on the guy playing funky slide guitar  
He's the only one i'm letting get that far

I wanna feel the music!  
Get wild in this town  
Shake it up and lose it till the walls fall down  
I wanna groove up on the melody  
And feel the beat inside of me  
And be the only star in the crowd  
I wanna feel the music all around...

Wrappin 'round that feelin  
Lawdy! Everybody rock your body  
Goin' for a crazy ride!

I wanna feel the music!  
Get wild in this town  
Shake it up and lose it till the walls fall down  
I wanna groove up on the melody  
And feel the beat inside of me  
And be the only star in the crowd  
I wanna feel the music all around...

I wanna feel the music, the music, the music...  
(I wanna feel the music)  
Feel the music, the music, the music, the music...  
(I wanna feel the music)  
Feel the music, the music, the music, the music...  
(I wanna feel the music)  
Feel the music, the music, the music, the music...  
(I wanna feel the music)
