

Hearts Never Lie

Tiffany Darwish

Too good together to be
so apart these days
and now more than ever
we need to talk face to face

We stopped moving forward
and now we're some place else
but the more we fool each other
the less we fool ourselves
Cause our hearts never lie
they just feel the love
Try so hard to deny
There's no reason to act
like we don't care
when the truth is always there
Oh hearts never lie
Why should we
Why should we
This whole thing is crazy (crazy)
Building walls to keep out the pain
And when there's no changing
mistakes are ready made
So let's start all over
one emotion at a time
Beginning with this feeling
that we've never lost inside
Cause our hearts never lie
they just feel the love
Try so hard to deny
There's no reason to act
like we don't care
when the truth is always there
Oh hearts never lie
Why should we
Does the word love scare you away
Does forever seem to long to say
Now it's time we end
this nowhere charade
and a real good place to start
is to listen to your heart

Cause our hearts never lie
they just feel the love
Try so hard to deny
There's no reason to act
like we don't care
when the truth is always there
Oh hearts never lie

Why should we
Oh why should we
Why should we lie
oh why should we lie
Oh hearts never lie
Something is crazy
Oh hearts never lie
