

Kiss The Ground

Tiffany Darwish

He said everything is wrong
I said nothing bad can last for long
This time I'll bring you to your kneesoh it's just like hope
It bites the dust but I believe
I'm in the photograph
That hangs up on a shelf
And when the lights are low
I feel just like monroe

And I shine like an angel
For the devil in him
And the chains that surround him
Will disappear

But the light shines on me
But the light shines on me

I kiss the ground I stand on
I move around in circles
You make me glad to be here
I don't wanna go

I kiss the ground I stand on
I move around in circles
Don't let the light shine on me

There was a game we played
To pass the time away
And when the lights were low
I'd undress like bardot

For the love of a stranger
With a dangerous side
And the more that I gave him
The more he'd desire

So I got up to leave
And he said after me
I know where you're going
I know
Well

So I got up to leave
And he said after me
I know where you're going
I know
Well

I kiss the ground I stand on
I move around in circles
You make me glad to be here
I don't wanna go

I kiss the ground I stand on
I move around in circles
Don't let the light shine on me
Shine on me

Don't let the light
No
Shine on me
