

Love You Good

Tiffany Darwish

Gets lonesome on the bayou
Out here where the moon don't shine
That Louisiana voodoo
creeps in with the fog sometimes

I appreciate the ride
especially on a night like this
There's my little shack
just pull around the back
Maybe i could still a kiss...

Love you good
Like the river rolls along
Steady and deep, slow and strong
Love you like a wildfire raging through these woods
Love you good
Like a hard rain pouring down
A Bolt of lightning striking ground
Shake you like the thunder never could
Love you good

I know it's getting late boy
But I don't wanna say good night
You don't have to be coy
Come in, I promise I wont bite

Pour yourself a drink
And maybe start to think romance
When this cajun witch
gets the evil itch
just let her do the devils dance

Love you good
Like the river rolls along
Steady and deep, slow and strong
Love you like a wildfire raging through these woods
Love you good
Like a hard rain pouring down
A Bolt of lightning striking ground
Wicked things a woman never should...
Love you good

I'm like a pretty poison pumping thru your veins
A deady dose of pleasure makes it worth the pain...

Love you good
Like the river rolls along
Steady and deep, slow and strong
Love you like a wildfire raging through these woods
Love you good
Like a hard rain pouring down
A Bolt of lightning striking ground
Be the willing victim that you should...
Love you good
Love you good

Oh, Love you good

love you good...

Gets lonesome on the bayou....
