

Promises Made

Tiffany Darwish

You said goodbye
and broke this
heart inside of me
teardrops fell
like hours to eternity
the room was silent
as some forgotten melody
your words of steel
still echo in my memory

Promises made, promises broken
promises made, promises broken

I thought we had a chance
to really make it last
now the future looks to me
like some unwelcome guest
I'll be alright
as soon as I get over you
but this time it won't be
such an easy thing to do

Promises made are
promises broken

Caught up in the sorrow
Tangled in dreams
in the lonely hours
of silent screams
in the heart of the darkness
I break down
I feel the spirit of you
all around

Promises made are
promises broken
promises made are
promises broken
