

American Nightmare

Tiger Army

Hot cherry on fire and it'll suck it down the spine
I put an axe in my baby's head gonna end up doing time
She looks so good in red
American nightmare running scared
Should of been hard to get,
Should of hardly cared, should of let hold of her babe
I had to split your head
American nighmare running scared
Oh headin' down the highway
Sign has three inverted nines
If the law don't get me the devil will but not without a fight
This highway never fuckin' ends
American nightmare running scared
American nightmare running scared
I'm headin' down the highway
And i'm having murder in mind
If the law don't get me the devil will but not without a fight
This highway never fuckin' ends
American nightmare running scared hey, american nightmare runni
ng scared
