

Eyes of the Night

Tiger Army

In the nighttime world, danger is near
Behind a mask of darkness, a predator stalks
Hide in dreamland, hide in dreamland
But in the night – it never ends

Eyes of the night are watching
Eyes of the night
Eyes of the night controlling
Eyes of the night

There is a power, it's in your hands
But the eyes are watching, yes, the eyes are watching
Luminous they stare, luminous they stare
But in dreamland – you don't seem to care

Eyes of the night are on you
Eyes of the night
Eyes of the night controlling
Eyes of the night
