

## Train to Eternity

Tiger Army

I left the station many years ago,  
excited for what lay ahead  
She stayed behind, so many miles although  
I close my eyes and there she is

These wheels roll on from track to track  
I ride across the land  
Every mile brings me closer  
The final stop is glory

On this train... to eternity  
I'll ride this train to eternity (and all the way down)

People get on and they get off  
Sometimes we become friends  
But they cannot stay, for in the end  
Our destinations aren't the same

Others try to ride along  
But find they cannot pay the fare  
Sometimes we pull into a station  
But if you get off, you're nowhere

On this train... to eternity  
I'll ride this train to eternity (and all the way down)

Long ago I got my ticket  
Never to be a slave  
And I go the direction that I want  
From greatness to the grave

On this train... to eternity  
I'll ride this train to eternity  
I'll ride this train to eternity  
I'll ride this train to eternity (and all the way down)
