## You Know The Rest

## **'Til Tuesday**

Here I go again
Making promises
If I tell you no
It still sounds like yes

You know the rest Do I have to say it?

Am I in too deep? Can I still confess? When you trusted me That was just a guess

I guess
You know the rest
You know the rest
Do I have to say it?

Well, I warned you once But without success And I just escape With my heart A mess

Know the rest
(It's not so easy)
You know the rest
(It's not that easy)
Do I have to say it?
You know the rest.
